

## A045 MOTORIZED SPECIMEN MARKER

Suitable for marking specimens that are to be submitted, to tensile test; The gauge length of the specimen is marked at preset intervals subdividing it into equal parts to allow the elongation to be calculated at the end of the test. This apparatus ensures the automatic marking of the specimens in compliance with the requirements of International Standards.

The machine is complete with limit switch and allows marking to be effected at intervals of 5, 10, 15 and 20 mm.

Specimen max. Dimensions:

Round section 40x400mm (diameter-side x length)

Square section 65x400mm(diameter-side x length)

Technical characteristics :

- **Power supply:** 230V 1ph 50Hz +T
- **Dimensions:** 510x380x400 mm
- **weight:** 62 kg

**The accessories to effect all the tests have to be ordered separately**
